June 2007

This exhibit shows that the County claim of a pre-existing retaining wall at the South property line is false. The ground was level between 1050 Acacia and the property to the South prior to the construction of the new fence / retaining wall and fill dirt. The County's evaluation of dirt fill depth and house height are based on the fraudulent retaining wall claim. Fence height violates Zoning Regulation 6412 limit of 6'-0".
