Dear Mr. Carey,

Thank you for contacting our office regarding the property at 1050 Acacia Street in Montara.

Our office has been in constant contact with the County's Building and Planning Department regarding your concerns. We have reviewed all stages of the development of the property with Planning and Building. They have done extensive research on the height of the home, its foundation and the landscaping. They have concluded that the developer is building the home within his legal requirements and he is following the guidelines of his permit and design review. In speaking with the Building and Planning Department, our office is in agreement with them and feel that the project should be built as planned and designed. We now consider this matter closed.

Thank you for contacting our office and letting us know your concerns.

Sincerely,

Richard S. Gordon
